FOR IMMEDIATE RELEASE

NUMERA BY NORTEK IS NOW AVAILABLE AT SES

St. Louis, MO – November 1, 2017 – SES, a leading distributor in the low voltage industry since 1982, is excited to add the addition of Numera by Nortek to our line card.

Today's personal emergency response solutions are largely reactive, home based, and lack solutions to promote healthy living. Numera by Nortek believes that to live healthier longer, the solutions must allow for proactive engagement and early intervention. Numera's proactive wellness solutions integrate health device measurements (including weight scales, blood pressure meters, pulse oximeters and thermometers) with Numera Libris mPERS device and web-based Numera EverThere platform.

Numera solutions provide a more complete picture of overall health and wellness, enable prevention activities to effectively manage chronic conditions and follow-up care, while also reducing the financial burden on caregivers.

Numera has a deep expertise in developing platforms and applications for the consumption and effective use of health and safety related information. They leverage the power of caregivers, friends and peer groups, subjective and objective health information, and the ability to make this information actionable via mobile, scalable, and branded solutions to allow people to live healthier longer.

Security Equipment Supply, Inc. (SES) has been a low-voltage distributor since 1982. SES started with one branch in St. Louis, and now has grown into thirteen locations throughout the United States including St. Louis, Detroit, Chicago, Kansas City, Memphis, Indianapolis, Wisconsin, Nashville, Louisville, Omaha, Colorado Springs, Dallas and Austin. SES is committed to being a business partner customers can count on. For more information about their locations, visit www.sesonline.com.
