

2MP HDCVI Vari-focal Bullet Camera

Starlight+ Technology and True Wide Dynamic Range

System Overview

Experience the superior clarity of Dahua's 2MP HDCVI camera for vast coverage and superior image details. The 2MP HDCVI series leverages existing coax infrastructures to deliver forensic-level images seamlessly and over long distances. The camera offers a motorized zoom lens, a multi-language On-screen Display, and HD/SD switchable output. The camera is ideal for hosting diverse applications — Starlight Technology and True Wide Dynamic Range allow the camera to operate in any lighting condition and the IP67 rating makes the camera suitable for the harshest environments.

Functions

Starlight+ Technology

For challenging low-light applications, Dahua's Starlight+ Technology captures details in low light applications. The camera uses a set of optical features to balance light throughout the scene, resulting in clear images in dark environments.

Three Signals over One Coaxial Cable

HDCVI technology simultaneously transmits video, audio, and data over a single coaxial cable. Dual-way data transmission allows the HDCVI camera to communicate with an HCVR to send control signals or to trigger alarms.

Long Distance Transmission

HDCVI technology guarantees real-time transmission over long distances without loss of video quality. HDCVI cameras provide the same resolution as most IP network camera systems using existing RG-59, RG-6, or CAT 6 UTP cabling.

Simplicity

HDCVI technology seamlessly integrates traditional analog security systems with upgraded, high-quality HD video, making it the best choice to protect security investments. The plug and play approach enables full HD video security without the hassles of configuring a network.

- 1/2.8-in. 2MP Progressive-scan CMOS Sensor
- 2MP (1920 x 1080) at 30 fps Maximum Resolution
- 2.7 mm to 13.5 mm Motorized Lens
- Starlight+ Technology for Low-light Applications
- True Wide Dynamic Range (130 dB) and 3D Noise Reduction
- Supports Multiple Video Formats: HDCVI, CVBS, AHD and TVI
- HD or SD Output, Switchable
- Built-in Microphone
- Maximum IR Length 60.0 m (196.85 ft)
- IP67 Ingress Protection
- Five-year Warranty*

Super Adapt

The Super Adapt function is a built-in algorithm that automatically adjusts the camera's optical settings as environmental conditions change to produce optimal video quality. This function helps to make initial configuration easy since it does not require setting the optical settings manually once the camera is installed.

Broadcast-quality Audio

Audio information is used as supplementary evidence in video security applications. This HDCVI camera transmits audio signals over the coaxial cable, eliminating the need for separate audio wiring. In addition, the camera uses unique audio processing and transmission technology that eliminates noise to best duplicate source audio, guaranteeing highquality and highly effective audio information.

Multiple-format Support

The camera supports multiple video formats including, HDCVI, CVBS, AHD, and TVI. The camera can switch between these four formats via the switch located on the video output cable, making the camera compatible with not only HDCVI DVRs but also most existing HD/SD DVRs.

True Wide Dynamic Range

The camera achieves vivid images, even in the most intense contrast lighting conditions, using industry-leading wide dynamic range (WDR) technology. For applications with both bright and low lighting conditions that change quickly, True WDR optimizes both the bright and dark areas of a scene at the same time to provide usable video.

Protection

The camera is subjected to rigorous dust and water immersion tests and certified to the IP67 Ingress Protection rating making it suitable for demanding outdoor applications. The camera allows for $\pm 30\%$ input voltage tolerance, suitable for the most unstable conditions for outdoor applications, and its 4KV lightning rating provides effective protection for both the camera and its structure against lightning.

Pro Series | A22DFAZ

Technical Specification				
Camera				
Image Sensor	1/2.8-in. CMOS Sensor			
Effective Pixels	1920 (H) x 1080 (V), 2MP			
Scanning System	Progressive			
Electronic Shutter Speed	1/30 s to 1/100,000 s			
Minimum Illumination	Color: 0.001 lux at F1.5, 30 IRE 0 lux at F1.5 with IR On			
S/N Ratio	More than 65 dB			
IR Distance	Up to 60.0 m (196.85 ft)			
IR Control	Auto, Manual			
IR LEDs	Four (4)			
Lens				
Lens Type	Motorized Vari-focal Lens			
Mount Type	ø14			
Focal Length	2.7 mm to 13.5 mm			
Maximum Aperture	F1.5			
Angle of View	Horizontal: 108° to 30° Vertical: 56° to 17° Diagonal: 131° to 35°			
Iris Type	Fixed Iris			
Close Focus Distance	800.0 mm (31.50 in.)			
Installation Angle				
Range	Pan: 0° to 360° Tili: 0° to 90° Rotation: 0° to 360°			

DORI Distances¹

	Detect	Observe	Recognize	ldentify
	(8 ppf)	(19 ppf)	(38 ppf)	(76 ppf)

Ingress Protection			IP67	

- The DORI distance is a measure of the general proximity for a specific classification to help pinpoint the right camera for your needs. The DORI distance is calculated based on sensor specifications and lab test results according to EN 62676-4, the standard that defines the criteria for the Detect, Observe, Recognize and Identify classifications.
- Identify classifications.
 Transmission distance results verified by real-scene testing in Dahua's test laboratory. Actual transmission distances may vary due to external influences, cable quality, and wiring structures.
