RZA-4XF Remote Annunciator

The RZA-4XF Remote Annunciator mounts on a standard single-gang box, and provides LED indication of the same functions as the 4XZMF Zone Relay Module. For example, with DIP 1=ON and DIP 2=OFF:

• One Zone in Alarm (red)
• Two Zones in Alarm (red)
• Releasing Circuit 1 (red)
• Releasing Circuit 2 (red)
• System Trouble (yellow)

A Local Trouble Sounder and Silence Switch are also provided. All LED wiring is supervised for open conditions. Any open condition will cause the System Trouble LED to illuminate.

☞   **Note:** The RZA-4XF Remote Annunciator requires the use of an LED Interface Module (see Figure 1, reverse side).
Figure 1 - Installation of the RZA-4XF with 4XLMF LED Module

LED Interface Module -- 4XLMF
