

Tech Express Kits Offer An Affordable, Tool-Up And Go Solution

ICM Corp. provides installers with an affordable, compact solution to quickly tool-up and immediately start working.

ICM offers an affordable and convenient solution for professional installers to experience the remarkable connections that are created with Cable Pro compression tools and cable strip tools. The compression tools are made of solid steel for maximum strength and durability, but crafted to be lightweight and easy to use. These tools are made in the USA and have a one year warranty.

ICM Corp. designs and manufactures these great products in our own facilities to guarantee our customers are receiving high-quality, superior performance products. ICM's F-Conn compression connectors and Cable Pro compression tools work together as a fully integrated system to create reliable, rock-solid connections.
