

This is the Future of mPERS - Mobile Personal Emergency Response Solutions

## PERSONAL SAFETY & WELLNESS IN ONE MOBILE SOLUTION

### All-in-one Personal Safety Solution for Successful Aging

Numera® Libris® is one of the first mobile health, wellness and personal safety solution that's all-in-one. Numera Libris with Numera EverThere® cloud-based platform integrates health measurement information, personal safety and emergency response with proactive socially engaging health services. Numera provides seniors and their family members tools to track and share important health and activity information, allowing people to take charge of their health, to manage chronic conditions, and to keep families and caregivers engaged.

# NUMERA LIBRIS FEATURES & SPECIFICATIONS

## Features

- **Leading edge fall detection** – detects falls via multiple sensors. Automatically calls your response team if it senses you have fallen. Nearly 90% of Numera® Libris® users utilize fall detection.
- **Broad customer base** – Designed for active seniors and people with chronic illnesses, as well as their family members, caregivers and professionals.
- **Increases your customer lifetime value** - Younger than average PERS customer base, remote device management and feature upsell options.
- **No installation** - Libris set-up and device management is easy, device is pre-configured, and does not require any on-site installation. Libris integrates with existing monitoring systems.
- **More than Mobile PERS** – Libris is paired with the EverThere cloud platform, a web based portal for Numera Libris customers, with location services, family and caregiver social features, online device settings, and customized notifications.
- **Compatible Wearables, Designed for Aging-in Place** – Numera wearables are compatible with Numera devices, including the Numera Libris mPERS product line and PERS-4200X, as well as 2GIG home security systems. F1-345 Fall Detector Pendants are the latest in technology in the Numera line of Personal Safety Wearables. Reliable transmission, sealed design, and leading-edge fall detection technology promote full-time use and around-the-clock protection.
