

Double Gang Hinged Bullnose Wall Plate, Black

WP9002-BK

The Bullnose Wall Plate is a unique cable management solution. Its hinged design provides four distinct configurations for flexible routing of low voltage cables inside the wall—just turn and snap the scoop for your preferred setup.

features & benefits

- Conceals cables inside the wall behind flat panel TV, amplifier, or other audio/video devices
- Hinged scoop allows for flexible routing of low voltage cables into and out of the wall
- Ideal for cables with large A/V connectors
- Conceals up to 14 cables
