

DK-12 is a one piece, single gang, illuminated digital keypad for lower security openings with access control. The DK-12 has an intuitive user interface with ultra-simple programming – making it easy to operate, even for users who haven't programmed keypads before. And with the optional rain cover and gasketed backbox, the DK-12 performs reliably in outdoor locations not directly exposed to rain or snow.

DK-12

Digital Keypad
