Isobar 2-Outlet Surge Protector, Direct Plug-In, 1410 Joules, Diagnostic LEDs, Black Metal Housing

MODEL NUMBER: **ULTRABLOK**

Premium protection for A/V home theater components and computer peripherals against dangerous power surges, spikes and line noise. Recommended for home theaters and home offices.

Description

Premium protection for your expensive computer and audio/visual equipment, the ULTRABLOK Isobar® 2-Outlet Surge Protector features a surge protection rating of 1410 joules to defend your sensitive electronics against even the strongest surges and spikes. In fact, Tripp Lite will repair or replace any connected equipment damaged by surges, including direct lightning strikes, up to $10,000 for life (valid in the U.S., Canada and Puerto Rico only).

The ULTRABLOK features two NEMA 5-15R outlets, perfect for your flat-panel HDTV and Blu-ray™ player or a pair of computer peripherals, such as a printer and a router. This unit's unique protection system prevents disruptive line noise from causing A/V distortion, computer lock-ups, data errors and similar problems. Large toroidal chokes, ferrite rod-core inductors, HF/VHF capacitors and multiple layers of metal oxide varistors remove EMI/RFI interference and prevent system crashes, reboots and performance problems.

Because residential power outlets have three wires—hot line (H), neutral (N) and ground (G)—the ULTRABLOK protects all three, covering two protection modes: full normal mode (H-N) and common mode (N-G/H-G).

An integrated 15A circuit breaker protects all outlets and shuts down connected equipment in the event of an overload. Diagnostic LEDs show power, protection and line fault status at a glance. The ULTRABLOK plugs directly into any standard NEMA 5-15R outlet. Optional mounting hardware is included for permanent attachment to the outlet cover, which will prevent the ULTRABLOK from coming loose accidentally.

Highlights

- 2 NEMA 5-15R surge-protected outlets
- 1410-joule surge protection rating
- Durable metal housing mounts out of sight behind furniture
- 15A resettable circuit breaker prevents dangerous overloads
- Plugs directly into outlet with no power cord

Package Includes

- ULTRABLOK Isobar 2-Outlet Surge Protector, Black Metal Housing
- Mounting hardware
- Owner's manual

SURGE / NOISE SUPPRESSION	
AC Suppression Joule Rating	1410
AC Suppression Response Time	NM = 0 ns. CM = <1 ns
Protection Modes	Includes full normal mode (H-N) and common mode (N-G / H-G) line surge suppression
Clamping Voltage (RMS)	140
AC Suppression Surge Current Rating	48,000 amps
AC Suppression Components Used	Metal oxide varistors, toroidal balanced chokes and VHF capacitors
Safe Thermal Fusing	Prevents unsafe conditions during extreme extended overvoltages and catastrophic occurences
EMI / RFI Filtering	40-80 dB
Immunity	Conforms to IEE 587 / ANSI C62.41
Auto Shut-Off	Yes

DATALINE SURGE SUPPRESSION	
Telephone/DSL Protection	No
Cable (Coax) Protection	No
Network (Ethernet) Protection	No
